SELECTMEN'S LETTER

To the Residents of the Town of Newington:

We respectfully submit herewith the selectmen's annual report for the year 1968.

(1) *Taxes and Growth* — The town and school budget as approved at the last town meeting, although the highest in our history, would not have in itself significantly raised our tax rate in 1968. Two important factors completely removed from the control of any of our town residents influenced a majority of the rate increase for the year. An \$11,500 increase in our share of cost of county government was the first attributable factor and due to local production curtailments and fuel shortages, our manufacturers and merchants stock-in-trade assessments decreased by \$1,060,-662.00. Hopefully, decreased budgetary requirements for some municipal departments will minimize rate increase possibilities for the coming year. With the location of one large commercial concern within the town and others projected for 1969, it would appear that our commercial and residential growth is increasing at a healthy ratio.

(2) *Water Line Extension* — During the past year water lines were completed to the school in North Newington and Phase 3 of our water plan was completed in South Newington. Due to the inability of the City of Portsmouth to complete its water commitments in South Newington, the Board of Selectmen, after considerable evaluation, hired a private contractor to complete that phase of our water projects. A number of conferences with Portsmouth officials resulted in their acceptance of the use of cement asbestos pipe, thus realizing a tremendous saving in material cost. A new water tariff proposed by Portsmouth will necessitate a re-evaluation of the final phase of the water plan which we will be prepared to present to the

town for approval at the annual town meeting. It is the unanimous opinion of this board that the completion of the water plan rates priority over all other pending major projects.

(3) *Recreation* — Two major recreational facilities were completed during 1968. In North Newington the skating rink was relocated on town property adjacent to Fox Point Road. This rink incorporates a larger and improved area with lighting facilities and water for flooding readily accessible. Its turf base incorporates its use during other seasons of the year as a soccer field and has been utilized in connection with the school physical education program. The addition of curbing to the proposed basketball court in South Newington has created a fine skating rink, thereby enabling the use of this facility year round. Removable baskets and backboards will be installed in the spring, and lighting facilities have already been activated. And, while we are under the subject of recreation, the Red Cross Swimming Program was continued successfully during the past summer with eager participation by over 60 youngsters.

(4) *New Equipment* — the purchase of the new Ford tractor has resulted in a considerable saving of time in our summer landscape requirements. Utilization of this equipment for snow plowing has proven to be practical and the savings realized by this use has surpassed our highest estimates. A much needed copying machine has been purchased for the town office. Permanent copies of important documents will be reproduced upon request for any town resident for cost of material expense. Through the cooperation and planning of the road agent and the firm supplying the new snow plow a considerable savings was realized; expenditure of the remainder of this appropriation was authorized by the selectmen to purchase an automated sander for winter and summer highway use. This machine represents a savings in both man power and in minimizing

salt waste on winter highways, as well as being more efficient for summer tarring operations.

(5) *Planning and Development* — During the past year your board of selectmen has attended many conferences concerning regional and local planning. Included in the meetings attended were the County Selectmen's Association, State Municipal Association, Man In Washington Plan, Housing and Urban Development Plan, (HUD) Civil Defense meetings, all dealing with progress through planning. The HUD plan is noteworthy inasmuch as an article will appear in the town warrant asking our community to join a state-sponsored regional plan. Its advantages and/or disadvantages will be explained at that time. Due to federal funds that are becoming available for this program we strongly urge all citizens to familiarize themselves with the functions of HUD. The announcement of the Public Service Company concerning its decision to locate here — and the subsequent announcement of relocation elsewhere will create further planning problems and opportunities. The Board of Selectmen and the Planning Board have been given assurance that the Public Service Company will cooperate with the town in locating any desirable new industry on property now owned by that company.

(6) *Protection of Persons and Property* — Under the leadership of Chief Young, our fire department is recognized as one of the finest Volunteer Fire Departments in the area, not only for its firefighting effectiveness but also for its search and rescue capabilities. The Board of Fire Engineers is to be commended for its initiation of the ambulance service and the programs in first aid and fire training. Our thanks to all members of this department for their unselfish contributions towards the protection of our people and property. With the continual growth of our commercial community the duties of the police department become more demanding and complex. If the community continues to grow at its present rate the town must consider in future

years a full time police department. Barring a large scale expansion in the business area the present system seems to be adequate for the immediate future. We would like to thank Chief Navelski and his personnel for their cooperation in the various town projects for which their services have been required.

(7) *Town Buildings* — The library trustees have presented to the selectmen a plan of expansion for the library. The trustees will present this plan to the people at town meeting for their consideration. The overall condition of our remaining town buildings is excellent, other than normal preventative maintenance; no extensive renovations are contemplated.

(8) *Conclusion* — In reviewing the accomplishments of 1968 this board feels it has been a prosperous and rewarding year. These accomplishments would not have been possible without the complete cooperation of our civic boards and individual town officers. The patience and understanding of all the residents has been outstanding. We thank each and every one for their efforts.

Respectfully submitted,

SYDNEY H. FRINK, *Chairman*

War Service Tax Credits Given \$ 1,400.00

PLANNING BOARD REPORT

The Newington Planning Board held twelve regular meetings and several special meetings during the year. Two public hearings were held in the matter of a recommended change to the zoning ordinance pertaining to land owned by Ira Coleman on Dover Road.

Subdivision plans submitted by I. Coleman, H. Frink and J. Cavaness were approved.

In accordance with vote of town meeting, the Board recommended to the selectmen that Coleman Drive be accepted as a town road.

I would like to take this opportunity to remind the people of the town that all planning board meetings are open to the public, and we urge our citizens to come forward with constructive suggestions towards the betterment of our town.

Respectfully submitted,

Stillman A. Packard, *Chairman*

ZONING BOARD OF ADJUSTMENT

At the annual organizational meeting of this board John R. Mazeau was elected as chairman and Anne H. Hislop as secretary.

We held three public hearings during 1968.

Variances were granted to Joseph Mailhoit and James Glidden.

Respectfully submitted,

JOHN R. MAZEAU, *Chairman*

**ACTION TAKEN ON ARTICLE IN SPECIAL
TOWN MEETING WARRANT
FEBRUARY 23, 1968**

Article 1. Voted to amend zoning ordinance as proposed by the Newington Planning Board pertaining to land formerly of Ira Coleman being located on Dover Point Road.

**ACTION TAKEN ON ARTICLES IN
TOWN MEETING WARRANT MARCH 12, 1968**

Article 1. Election of Town Officials.

Article 2. Voted to leave care and maintenance of town lands and buildings to discretion of selectmen.

Article 3. Voted to authorize selectmen to administer or dispose of any real estate acquired or to be acquired by the town through tax collector's deeds.

Article 4. Voted to authorize the selectmen to hire money on the credit of the town in anticipation of taxes at a rate not to exceed the current bank rate.

Article 5. Voted to spend a sum not to exceed \$13,500 from funds authorized under Article 5 of Town Meeting Warrant of March 14, 1967 in the Town of Greenland to extend the water line to the Newington Town line to enable continuance of sequence of phases of water consultant's recommendations.

Article 6. Article amended to read: "To see if the town will authorize the selectmen to accept Coleman Drive so called as a public road in the town of Newington after the Planning Board approves a plan for its acceptance." Article as amended voted **AYE**.

Article 7. Voted to appropriate the sum of \$500 to be set aside as a contingency fund to meet unanticipated expenses of the town.

Article 8. Voted to consolidate offices of selectmen and overseers of the poor.

Article 9. Report of Budget Committee heard and it was voted to add the sum of \$200.00 to raise Treasurer's salary to \$600.00. Budget as amended voted aye.

Article 10. Accepted Town Clerk's Report on election of town officers.

HIGHWAY DEPARTMENT REPORT

This department wishes to thank the townspeople for their foresightedness in appropriating the funds which made possible the purchase and installation of a much needed new plow and hydraulic wing equipment.

The selectmen and highway department were able to negotiate with the same company to also supply sanding equipment for the figure originally quoted. This was a savings to the town of \$550.00. All equipment has proven to be of great benefit to the department and the town.

Funds were also appropriated by the townspeople to this department for the repair of road damage created by the laying of the new water line. Not knowing how far the water line would be able to be extended in 1968, we tried to keep a sum in abeyance, with the result that we did not spend the entire appropriation. We hope that the voters will appropriate the sum needed for the ensuing year.

Respectfully submitted,

DONALD E. BEALS

Highway Agent

LANGDON LIBRARY REPORT

Langdon Library hours: Monday - Wednesday - Saturday
1 to 5 p.m.

Summer hours: Wednesday & Saturday 1 to 5 p.m.

South Newington Branch hours: Wednesday & Saturday
2 to 5 p.m.

Since the Langdon Library was built in 1892, an addition was made and used as a stack room in 1921, which was later changed into the Children's room. There have been no major changes or additions made since then.

To the collection of books for study and reading, magazines were added; years later came the stereo and records, and the film projector and film programs.

With the increased services and use, the Children's room has grown too small and has been greatly in need of more space for some time. (Picture 20 to 25 children looking at a film in that little room.)

Many changes are steadily taking place in library services to improve and modernize it in New Hampshire (the first State in the Union to authorize maintenance of Public Libraries by taxation in 1849). These improvements stimulate a greater interest in using these institutions of learning and relaxation.

In its 76th year our library, and branch library, have also seen increased use and service. Many magazines were ordered and in constant use; 322 books accessioned — juvenile and adult — reference, fiction and non-fiction; Bookmobile service provided a great many more books and the State Library also supplied us with many requested books, ordered for individual borrowers; a supply of new records; film program; Great Bay School books, and Day Care children visits while they were still in our midst. An

extra hour has been added to open library days — from 1 to 5 p.m.

In these times we either go forward or we slip backward. Our Library has problems and we would be remiss in our duties as its trustees if we did not try to solve them to the very best of our ability. We have sincerely and carefully planned, with an eye to future as well as to the present needs facing us.

Yes, costs are increasing continuously at a rapid rate, and that is why we think this would be the ideal time to build the LIBRARY ADDITION AS DRAWN UP BY Mr. Donald Sumner, Architect of Hersey Associates, Durham, New Hampshire.

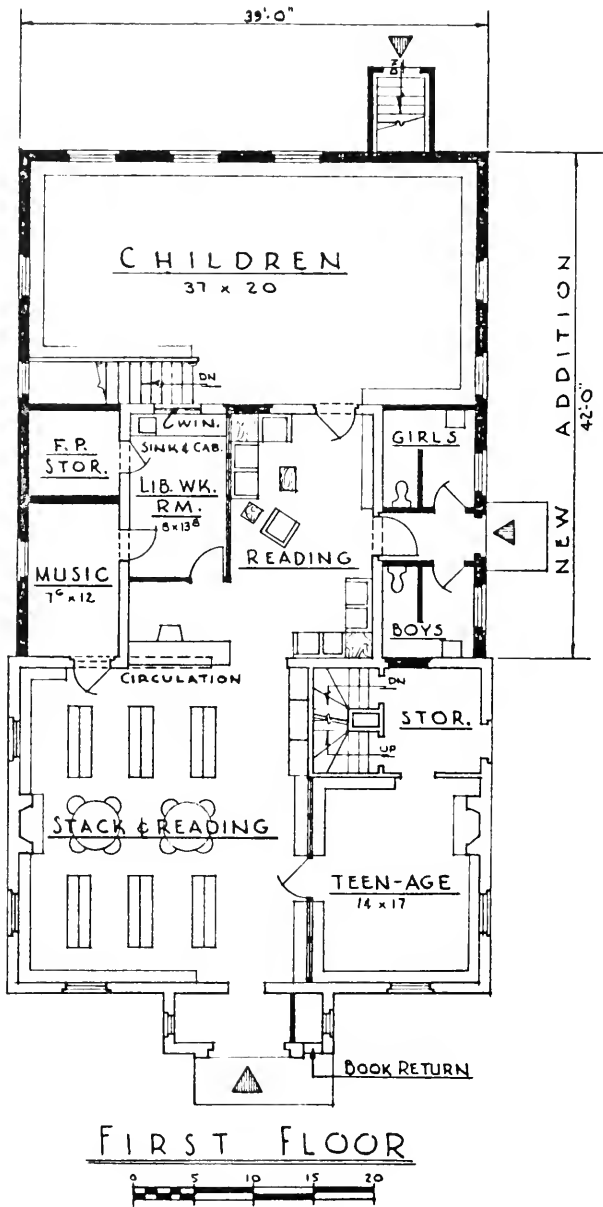

According to statistics, costs of building, materials and labor will continue to rise and the longer the delay, the higher the cost will be.

In our first meeting with Mr. Sumner, we discussed what we wanted included in his plans: More space for our Children's room; fireproof room for our valuable and irreplaceable books and papers; soundproof room for stereo and records; teen-age area; adult area and adequate stack room; proper restroom facilities; lighting and heating facilities; return book slot; pitch roof to avoid snow and ice damage.

We chose one of the plans submitted and together we (architect, librarian and trustees) have worked on it until we consider it ready for your inspection and decision.

You will note that the present library is utilized in its entirety.

PLAN: Entering the front door with its Return book slot: on your right will be the new Teen-agers area (now stacks of fiction, biographies, magazines, etc.); on your left will be the Adult reading and stack area (now the Librar-

STUDY of ADDITION
TO
LANGDON LIBRARY

BASEMENT FLOOR

ian's desk and work area, reading table, chairs and book stacks).

Entering the Central area (present Children's room is used as part of this area) you will find: centered in this area will be the Librarian's new work area and desk — from here she can see and supervise the entire main floor; to her left will be a small fireproof room for valuable books and papers, and a music room for stereo and records; on her right will be a relaxation area with chairs for patrons who wish to relax with paper, magazine, or just for a quiet chat with someone; to its right will be restrooms — one for girls and one for boys.

From this Central area you will enter what we so badly need — the new large-size Children's Room. Under this room will be a basement which could be utilized in many ways.

We did not make the needed repairs to the damaged ceiling, walls, floor, table and chair in the Children's room from the roof-leakage last winter. This was to wait for your hoped-for approval of building the LIBRARY ADDITION as soon as possible. However, we did replace the damaged books.

Two of our Town's best investments and assets are its School and Library. The townspeople provided Newington with a first-class School building. They provided our first-class Civic Center building and a first-class Fire Station.

Why not provide Newington with a first-class Library by building the new LIBRARY ADDITION now?

You will take pride in it; young and old will enjoy using its services and facilities for many years to come.

May we extend our sincere thanks to all of you who have so generously contributed memorial and regular books and magazines to our library, and also to all those who have donated their time and that much-appreciated helping hand

TOWN WARRANT

TOWN WARRANT

STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Newington in the County of Rockingham and said State qualified to vote in town affairs:

You are hereby notified to meet at the Newington Civic Center in said Town on Tuesday, the 11th day of March next, 1969 at Ten O'Clock A. M. to act upon Article 1.

The Polls will open at Ten O'Clock A. M. and unless extended by vote at the meeting will close at Six O'Clock P. M. The Town Meeting will resume at 7 O'Clock P. M. to act on ensuing Articles.

Article.1. To choose in the manner provided by law 1 Selectman for a term of 3 years; 3 members of the budget committee for terms of 3 years; 1 trustee of trust funds for a term of 3 years; 1 member Board of Fire Engineers for 6 years; 1 library trustee to hold office for three years; 1 member cemetery committee for 3 years; a town clerk, collector of taxes, town treasurer, highway agent, auditors, chief of police, measurers of wood, surveyors of lumber, fence viewers, pound keeper, building inspector and any other officials required by law to be chosen by vote.

Article 2. To see if the Town will vote to leave the care and maintenance of town lands and buildings to the discretion of the selectmen.

Article 3. To see if the town will vote to authorize the selectmen to administer or dispose of any real estate acquired or to be acquired by the town through tax collector's deeds.

Article 4. To see if the town will vote to authorize the selectmen to hire money on the credit of the town in anticipation of taxes at a rate not to exceed the current bank rate.

Article 5. To see what sum of money not to exceed One Hundred Seventy Thousand Dollars the Town will vote to raise and appropriate by the issuance and sale of bonds of the Town under and in accordance with the provisions of Chapter 33, Revised Statutes Annotated of New Hampshire, as amended, in order to defray the cost of labor and materials to complete the extension of the water system and for the payment of the outstanding

notes issued under the authority granted the Selectmen by the action of the Town Meeting under Article 5 of the warrant for the Annual Meeting in March, 1966; and that the Selectmen be authorized to determine the interest rate, the denomination and form of said bond, the time and place of payment of principal and interest, and the terms of sale; and that the Selectmen be further authorized to sign and affix the seal of the town to said bonds and the Treasurer to countersign the same.

In the event that a bond issue is authorized under Article 5 for the purposes stated therein, to see if the Town will vote to rescind the action taken under Article 5 of the 1967 Annual Town Meeting Warrant as to future operations and to withdraw the authority of the Selectmen to issue further notes under said Article.

Article 6. To see if the town will vote to appropriate the sum of \$500 to be set aside as a contingency fund to meet unanticipated expenses of the town in accordance with the authority of New Hampshire Laws 1965:123.

Article 7. To see if the Town will vote to become a member of the HUD Regional Planning Agency. This agency will have membership of at least two of the municipalities in the seacoast area. The objective of this agency will be to plan for and encourage regional planning analysis, provide consensus on major problems of regional concern and to assist in the effectuation of projects which extend beyond the boundaries of a particular town. The agency will have no jurisdiction over any matter of local affairs. It will be primarily advisory. Two members of the regional planning agency shall be from the Town of Newington, appointed by the Selectmen.

Article 8. To see if the town will vote to appropriate the sum of .25¢ per capita to finance studies to be conducted by the regional planning agency. These monies will be used for financing planning studies which must be approved by the regional planning agency. These funds may be used in conjunction with other State and Federal funds available for planning purposes.

Article 9. To see if the Town will vote to establish a building committee to study future library expansion and appropriate the sum of \$400 for architectural fees. Committee to consist of nine members made up as follows: one selectman, two library trustees, one member of budget committee, one member of the planning board, one member of the school board, the fire chief and two members selected at large.

Article 10. To see if the town will vote to authorize the selectmen to appoint an advisory recreation committee to evaluate the recreational requirements of the town and to submit any recommendations to the selectmen and budget committee.

Article 11. To hear the report of the budget committee and to see what sum of money the town will vote to raise and appropriate for all town expenditures in the year ensuing as included in the budget.

Article 12. To hear the report of the town clerk on the election of town officers.

Article 13. To transact such other business as may legally come before the meeting.

Given under our hands and
seal this 18th day of February,
in the Year of Our Lord
One Thousand Nine Hundred
Sixty-Nine.

CONSERVATION COMMISSION REPORT

During the past year the Newington Conservation Commission has met with representatives of similar Commissions from towns surrounding the Great Bay and tributary river areas for the purpose of organizing coordinated conservation programs. The area groups will also provide local representation and concerted involvement in any of the several Federal or State projects that continue to be originated by other than local area interests.

Future activities which the Commission may recommend for your approval are continued reforestation of town lands, including planting of Christmas trees so that our youngsters may in the future have the fun of cutting their own yuletide tree. In order to take full advantage of our unique natural marine resources, and in cooperation with shore-front property owners and the new UNH Marine Biological Laboratory, a program of re-seeding oyster and clam beds is planned.

Under the Enabling Act, RSA 36-A, funds which you appropriate are allowed to accumulate from year to year in a trust fund at interest. When the fund reaches \$1,000 it can be augmented with a grant of \$500 from the Spaulding Potter Trust and dollar-for-dollar grants from the federal Land and Water Conservation Fund.

These funds can be used for the purchase of abandoned fields, woodlots, marshlands or other open space in cases where the land-owner desires to dispose of them and yet retain the rural charm of the town.

Lands acquired or deeded to the town's Conservation Commission must be retained indefinitely as undeveloped open space for the enjoyment of all the town residents.

whenever and wherever needed, including the care and planting of our urn.

"History of Tamworth" was Florence C. Watson's Memory book for 1968 from her Fund. It had been a favorite of hers.

As a very necessary part of library maintenance, to straighten out and bring the library's records up-to-date, we started our card cataloging project in November and will continue it until finished.

Mrs. Marjorie Pickering has undertaken this task; old and useless books are discarded; standard classics and others rarely called-for are being stacked on the new shelving units in the attic, where they will be available at any time in the future when needed.

We hope you will visit your library often. Your patronage is warmly welcomed and your librarian will gladly assist you in every way possible.

We commend our librarian and assistant librarian for another year's work well done.

Have you seen Copies of Genealogy text known as "Newington Families in the Eighteenth Century"? The Librarian will be glad to show it to you.

If you are interested in having one of your own she will be happy to take your order for same at \$3.00 each (proceeds for Library).

It would be interesting to see how many can come up with some of the missing information which the author was unable to find.

THE OLD PARSONAGE

The Newington Historical Society has opened the Old Parsonage on several occasions this past summer with more than one hundred people visiting the building or attending meetings there.

In early summer the Society used the house for their annual meeting and election of officers. In September it was used again for a meeting of the D.A.R. and on another occasion for the use of the ladies whose husbands were attending a meeting of the Sons of Colonial Wars held in the Old Meeting House.

On July 4th the Parsonage was opened to the public and we were pleasantly surprised by the number of people from out of town who came to visit. An "Open House" was held in August, and an exhibition of antique dolls was on display. This affair attracted the largest attendance and plans are now being developed for similar events.

On two other days the Parsonage was opened by appointment for private tours of the house.

Two young men, Robert Chase and Richard Candee, both authorities in Early Americana, have closely examined the building and its furnishings. They have been very generous in offering a great deal of expert advice in reference to the continuing use of the building. During the fall it was found necessary to repair a leak in the roof which had permitted water to run down between partitions, damaging a small area of plaster along the staircase wall. Otherwise, the building appears to be in good condition and the Historical Society is now formulating plans for use of the house in 1969.

Respectfully submitted,

BARBARA M. MYERS, *President*
Newington Historical Society

POLICE DEPARTMENT REPORT

I take pleasure in submitting the department annual report for the year 1968. Below you will find a breakdown of activities and elsewhere in the book is a breakdown of salaries and other expenses. Our town is growing rapidly and I would like to take this opportunity to say that the time is here where we must seriously consider the need for a full-time police officer so the town will have adequate protection 24 hours a day.

Thanks are extended to all our special officers who give the department such able assistance and we express our appreciation to all other officials and departments of the town for such fine cooperation in keeping Newington a fine place in which to live and work.

JOSEPH C. NAVELSKI
Police Chief

BUILDING INSPECTOR'S REPORT

This is your Building Inspector's report for the year ending December 31, 1968. This has been a year of progress, contributing to this very much, was the locating of a new sales and service building on Route Four and Sixteen in Newington, N.H. by Taccetta Chevrolet, Inc. formerly located in Portsmouth, N.H. we welcome them and wish them every success, they have a nice location with facilities to take care of our every need.

We also at this time wish to mention the large nuclear Public Service Plant that was to locate here, but after a great deal of testing and expenditure of a large amount of money, decided to locate in Seabrook, N.H. this was a welcome decision to the Families that would be required to move, one of them had already relocated in South Newington. The decision not to locate here was taken with a measure of relief by all the people in Newington due to the hazards involved.

A small industrial building with living quarters over in this restricted area is now under construction and going along nicely towards completion. Also another Family in this area that built a patio with breezeway this past summer, will not be restricted on the time that they can enjoy it. There have been six permits issued for new homes this year, one will not be built due to burning of the home, on which it was to be attached. Three are already built and occupied, and two more are well under way on the construction.

At the Simplex Wire and Cable Co. work has started on two building additions, and the future holds possibilities of future expansion.

There are well founded rumors that several well known stores are soon to locate on the Tri-State Shopping Center, Inc. in Newington, N.H. It will be nice to have this area occupied.

Three Mobile Homes have moved into Newington, N.H. One is to be used for temporary living quarters, while a new home is being built. Other construction that should be mentioned, is a garage with breezeway, garage and workshop, storage shed, two car garage, horse stable, signs, roofs shingled, and repairs, also porch extension, addition to home, and a sewage disposal system.

There have been three separate violations given to the Selectmen for enforcement, said violations were caused by non-compliance with our zoning ordinance. Have done my best as Administrative Officer and Building Inspector to do my part, this has taken a great deal of study, my decisions have been made keeping clear of political gains and personal involvement, in other words have gone by the book all the way. I cannot do any different than I have done, am elected by the voters of the town, and am accountable to them the way I do my job. I have no regrets, some of my decisions were forced upon me. To all those who did comply with our regulations a gracious thank you.

During the year 1968 thirty-one Building Permits were issued, for a total valuation of \$357,460.00 and following is an itemized listing of all permits.

Respectfully submitted,

MAURICE E. ROBINSON
Town Building Inspector

ANNUAL REPORT OF THE NEWINGTON VOLUNTEER FIRE DEPARTMENT

Your volunteer fire department has taken another big step forward in carrying out the vote of the people of the last town meeting to buy an ambulance formerly owned by the City of Portsmouth. In addition to the basic ambulance we purchased needed accessory equipment such as a radio, extinguisher, oxygen masks, etc., in order to utilize the vehicle to its highest efficiency. The ambulance was accepted by the Board of Fire Engineers and Selectmen on July 12, 1968 and we received our first call on July 23. Since that time we have received 21 calls involving all types of emergencies. We were fortunate indeed that Dr. Leonard Eames was able to take time out of his busy schedule to attend an intensified first aid course on the emergency care of the sick and injured which was sponsored by the Dartmouth College Medical Center in Hanover. After completion of this course, Dr. Len took on the task of conducting training courses in first aid. In referring to ambulance service—anyone requiring emergency transportation to hospitals should call the fire department RED PHONE 436-5737. In such cases as non-emergency trips—wherein a patient may have an appointment for x-ray or other outpatient treatment and could not be transported comfortably by private car—we suggest that arrangements for use of ambulance be made in advance of scheduled arrival at hospital.

Our fire men have participated in several training programs and the response not only to the training sessions, but to all emergencies has been outstanding. For instance, the large number of men responding to the search operation in December, working all night and well into the next day, exemplifies their dedication to duty. The department received a fine letter of commendation from the Commander of Pease Air Force Base for its assistance in this mission.

I would like to take this opportunity to express my personal appreciation and that of the entire department to

the Ladies' Auxiliary for providing the very welcomed refreshments, not only during emergencies but also at several training sessions. I believe we are all fully cognizant of the fact that the auxiliary contributes greatly to the benefit of the department.

I would be remiss in my duty if I did not report to the citizens of the town that in the very near future we must seriously consider the purchase of a major fire department vehicle. Our responsibilities are rapidly increasing and we must be prepared to meet these responsibilities. Only through having efficient equipment on hand, and proper training of our department members to man the equipment may we accomplish this. Although we are grateful for, and still enjoy the benefits of the Interstate Emergency Unit, we must realize that these communities might have an emergency of their own which would prohibit them from responding to a call for help from a neighbor, so we must try to the utmost to become self-sustaining.

We are particularly pleased with the young people who have displayed their community spirit by joining the volunteer department and who have responded so diligently to the emergencies. Our thanks go also to the people of the town and the various town officials for the splendid cooperation given to their fire department. We are sure that each and everyone of us will continue to practice our good fire prevention policies.

As I have been known to say before—I am extremely proud to be a part of our Newington Volunteer Fire Department, which I believe is one of the finest in the country.

Respectfully submitted,

WILLIAM J. YOUNG
Fire Chief

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

People cause fires. Our records show that the number of fires increase in an area as the population increases and our state is growing tremendously. This means that we all must be aware of fire causes and do our best to prevent their occurrence.

When we are very young the lighted matches is an adventure, burnt fingers and a dropped match is another fire. A little older we like to have a woodland cookout, or go out by ourselves for a smoke but fire and forests get together for another statistic. We adults like to clean up in the spring, burn the old debris and dead grass, result — escaped fires and much personal expense.

With new homes and summer cottages located in woodlands and with abandoned fields and forests crowding the backyard of our villages' streets, it is necessary that everyone be aware all through the fire season, which comes with the disappearance of the snow, of the need to be careful with outdoor fires and fire sources.

The following action will help:

1. To teach our children the danger of lighted matches.
2. To *never* discard lighted smoking material from a car or while walking through the fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn —
 - a. You need a written permit from the town fire warden for *all* debris burning except when the ground is covered with snow. Cooking fires in outdoor fireplaces or in charcoal brasiers in your own back yard is permitted on notification of the warden.

- b. The warden is forbidden by regulation to allow burning of household rubbish on *grass* by householders between 9:00 a.m. and 5:00 p.m.
 - c. Have equipment on hand to control the fire *before* you light the match.
4. Promptly report any fire out of control to your fire warden or fire department.

Help to keep our town out of the fire occurrence column and save your tax dollars for useful purposes.

Forest fire record for 1968:

	<i>Number of Fires</i>	<i>Woodland acres burned</i>
State	593	349
District	119	197
Newington	0	0

Respectfully submitted,

RALPH STEVENS, *District Chief*
WILLIAM J. YOUNG, *Warden*

CIVIL DEFENSE DEPARTMENT

During the past year the Civil Defense organization has maintained a status of readiness so that we may swing into operation during any emergency that may arise, be it an act of foreign aggression or a natural disaster. It is gratifying to have key personnel in the areas of responsibility willing and able to keep themselves qualified to perform the duties that must be done.

All state and federal forms and requirements have been met with so we may keep the town in good standing and certified to receive any benefits which we might require in an emergency.

I wish to take this opportunity to thank all who have worked towards the success of our Civil Defense Program.

Respectfully submitted,

WILLIAM J. YOUNG

CD Director

DOG OFFICER REPORT

Responded to a total of 17 complaints concerning stray dogs, dogs barking excessively or otherwise causing a public nuisance, etc.

Picked up 14 stray dogs all but one of which were returned to owner or homes found for.

Owners please be reminded that all dogs three months of age and over must be licensed and vaccinated against rabies. Every dog is required to be re-vaccinated at not more than twelve-month intervals and proof must be submitted to town clerk before license may be issued.

Respectfully submitted,

ERNEST R. KADDY, *Dog Officer*

NEWINGTON CEMETERY COMMITTEE

The Newington Cemetery Committee held its annual 1968 meeting on Friday, January 10, 1969, at 7 o'clock in the Civic Center.

The proposed 1969 budget was discussed in detail and accepted as read.

Relative to the mapping project, the chairman pointed out that considerable research work had been accomplished by Mr. Moulton to provide for an adequate map of the Eastern Division.

Mr. Moulton reported that all perpetual care lots have now been located and identified.

The Committee discussed other items pertaining to the operation of the cemetery.

Respectfully submitted,

DOROTHY M. WATSON,

Secretary

NEWINGTON SCHOOL DISTRICT SCHOOL WARRANT

The State of New Hampshire

To the inhabitants of the School District in the Town of Newington qualified to vote in district affairs:

You are hereby notified to meet at the Civic Center in said district on the 11th day of March, 1969, from 10:00 a.m. to 6:00 p.m. to act upon the following subjects:

1. To elect a Moderator for the coming year.
2. To elect a Clerk for the ensuing year.
3. To elect a Member of the School Board for the ensuing three years.
4. To elect a Treasurer for the ensuing year.

Given under our hands at said Newington this 13th day of February, 1969.

Clifford Spinney, *Chairman*
Stillman A. Packard, III
Mrs. Grace Smith

REPORT OF THE SCHOOL BOARD 1968-1969

The Newington School Board feels that the program that was started two years ago—increasing the teaching staff to four teachers—is continuing to show most favorable results. With education making its current rapid advances, the School Board feels that with our program we can better cope with these changes and have students reap the most benefit.

It was with regret that Union 56 accepted the resignation of Mr. Robert Brunelle. His leaving will be keenly felt by your School Board. The position of superintendent has been filled by Mr. Brunelle's assistant, Mr. John Powers. The School Board has worked with Mr. Powers for the past year and feels he is most able and competent to accomplish the necessary work that lies ahead.

As a result of a favorable vote at the 1968 Newington School District meeting, the board has joined with Portsmouth, Greenland, New Castle and Rye in forming an area school plan grades 9 through 12. Mrs. Frederick (Grace) Smith is the board representative to the area school meetings.

Accident insurance has been added to cover all students enrolled as of November, 1968.

The School Board meets the third Monday of each month at 7:30 P.M. at the school. These meetings are open to all citizens.

The School Board is very pleased with the performance of the faculty, school nurse, custodian, transporter and all

NEWINGTON TOWN REPORT

others connected with the school and many thanks goes to those who have volunteered their services to help our school.

Respectfully submitted,

CLIFFORD E. SPINNEY, *Chairman*

NEWINGTON SCHOOL DISTRICT

Report of the Superintendent of Schools

To the school board and citizens of Newington:

Again this year, our school has had strong support from the community. As the cost of living increases, so does the challenge to finance quality education. Costs of teachers' salaries, teaching supplies, and textbooks continue to increase rapidly.

In Newington, we have not only continued to meet the challenge, but we have upgraded the educational offerings. The four-teacher plan has indeed proven its worth, and we find our youngsters performing very well as they transfer from the elementary school.

We had one teacher replacement: Mrs. Pamela Stein replaced Mrs. Jane A. Gilbert in Grades 5-6. Mrs. Stein received her bachelor's degree in 1965 from the University of California, and she taught in the New York City public schools prior to coming to Newington.

Mr. Michaels, as principal, has continued the fine job of program co-ordination and school leadership.

Under the AREA school arrangement, we have now entered into a 20-year contract with the Portsmouth schools which guarantees that our students may attend the Portsmouth schools for their education beyond Grade 6. The period of twenty years is subject to extension if Portsmouth must build at any time while receiving students from Newington.

Mr. Robert L. Brunelle, Superintendent of Supervisory Union No. 56, was promoted to the office of Deputy Commissioner of Education for the State of New Hampshire effective November 1, 1968. His selection for that post indicates the confidence placed

in him and shows respect for the progress local education has made under his leadership. The transition to a new superintendent was accomplished with little difficulty because of an experienced school board and teaching staff.

Respectfully submitted,
John H. Powers
Superintendent of Schools

ANNUAL REPORT OF THE SCHOOL NURSE

To the Superintendent, School Board and
Citizens of Newington:

It is my pleasure to submit a summary of our School Health Program.

The following statistics include the period from September, 1967 through June, 1968.

Number of pupils tested (Including rechecks)

Vision tests	79	
Hearing tests	80	
Height and Weight (3 times a year)	191	
Home visits or phone calls	13	
Pre-school registration	13	Possible difficulties noted
Communicable diseases		and treated
known and reported		1 — new glasses
Chicken Pox	1	1 — Parent notified

At the pre-school registration each child had their height and weight checked and were screened for vision and hearing problems as well as speech problems by a speech therapist from the Rehabilitation Center in Portsmouth.

Miss Patricia Linchan, Dental Hygienist from the New Hampshire State Department of Health gave classroom talks and showed slides on care of teeth and there were 18 children who received fluoride treatment given by Mrs. Mildred Wilder and Mrs. Shirley Hodgdon of the State Department of Health. This worthwhile project was done at the school at a nominal fee.

Tuberculin skin tests were given to the pupils of the first grade by Miss Constance Martin of the New Hampshire Tuberculosis and Health Association. Lack of funds made it impossible to test all pupils but it is hoped that by

finding and eliminating the problem in the early years this disease will be eventually stamped out.

I look forward to my visits at the school and find that there is no better way of knowing the children of our town than to be concerned about their health and welfare.

I would like to thank our Superintendent, School Board, principal, teachers and parents for their support and cooperation.

Respectfully submitted,

EDITH E. KNOX, R.N.

School Nurse
